

Business Partner Code of Conduct

Purpose and General Responsibilities

It is the general policy of HASI and its affiliates (the "Company") to conduct its business activities and transactions with the highest level of integrity and ethical standards and in accordance with all applicable laws, rules and regulations. Obeying the law both in letter and in spirit is the foundation on which the Company's ethical standards are built. This Business Partner Code of Conduct (this "Code") sets the Company's expectations and standards for doing business and applies to agents, distributors, dealers, contractors, intermediaries, and suppliers ("Business Partners"). **The following policy applies to you, our Business Partner.**

The highest legal, moral, and ethical standards of honesty, integrity, and fairness are to be practiced in the conduct of the Company's affairs. In order to meet this standard, each Business Partner is expected (i) to read and understand this Code and its application to the performance of their business responsibilities and (ii) to conduct themselves in accordance with this Code and to seek to avoid even the appearance of wrongdoing or improper behavior. Those who violate the standards in this Code may be subject to a cessation of business dealings and/or the reporting of violative conduct to appropriate regulatory and criminal authorities.

HASI requires that all independent contractors, in-office or remote consultants, and 1099 employees, who work closely with existing full-time employees on a short-term or per-project basis, must complete the provided Code of Business Conduct and Ethics training within 30 days of business engagement.

This Code may be amended from time to time, and all updates are effective immediately upon posting. Other policies that govern the conduct of Business Partners may be established by the Company from time to time that supplement and are in addition to this Code.
